How to Embed a Video into a News Announcement in CougarVIEW

Step 1
Make sure the embed link is Copied to your clipboard. To do this, highlight the embed code and press $\text{ctl} + C$ on a PC, or command $+ C$ on a Mac.

Step 2
Create a new News Announcement and enter embed code

1. From the course homepage click the dropdown arrow next to the Announcements widget

2. Select New Announcement

3. Add a title (required!) Then add text if you like.

Then click the Insert Stuff button

4. Select Enter Embed Code
5. Paste the embed code. PC ctrl V, Command V for a Mac. Then click “Next”

6. Click “Insert”

Date restrict if you like

Click “Course Home” and admire your work!
